Information Technology and Systems / Technoleg a Systemau Gwybodaeth
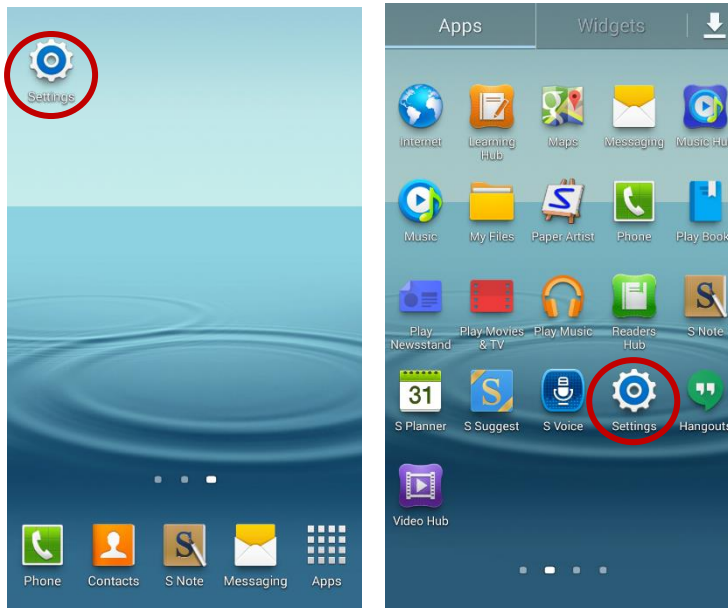

Connect to Eduroam Wi-Fi Network (Android)

To successfully setup your device to connect to the eduroam wireless network, please follow the below steps;

**1.** On your Android device please click on your **settings**

2. Select **Wi-Fi** (It may be under 'Connections' > 'Network Connections')

*NB. Please ensure that Wi-Fi is switched on, this is indicated with the highlighted bar next to **Wi-Fi***
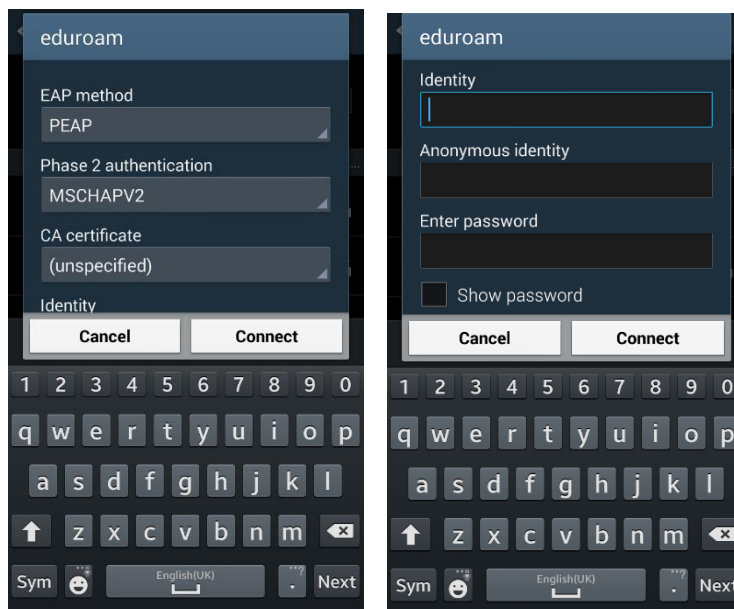

Information Technology and Systems / Technoleg a Systemau Gwybodaeth

3. Select the **eduroam** network listed under 'Wi-Fi Networks'

NB. Please ensure that you are in range of the eduroam network before trying to connect

4. You will be prompted with the following screen;

(You will need to scroll down the screen to enter further information, please ensure the following information is entered)

4.1. Set the EAP method to **PEAP**

4.2. Set the Phase-2 authentication to **MSCHAPv2**

4.3. Set CA certificate to **(Unspecified)**

4.4. Enter your username into the **Identity** and **Anonymous Identity** box

Students

Enter your **full student email address**

Examples: *studentnumber@student.uwtsd.ac.uk*
jbloggs.123456@student.uwtsd.ac.uk

Staff

Enter your **full staff email address**

Examples: *j.bloggs@uwtsd.ac.uk*
joe.bloggs@uwtsd.ac.uk

4.5. Now enter your domain password
4.6. Then click on **Connect**

5. You should now see the eduroam status change to **Obtaining Address** and then finally **connected**.
