## Step 3: Create Teams from your Moodle Modules

There are three tabs at the top of the app.

**Moodle dashboard** tab allows you to log into and work directly in Moodle from within the mConnect app

My Feed tab shows any content or comments you add

**Team Creator** allows you to generate teams from your module cohorts. To create a team:

- 5. Select the 'Team Creator' tab
- 6. Select 'Default Moodle Module Template from the drop-down list.
- **7.** Modules you are enrolled on in Moodle are listed below. Be sure to select the correct modules for the teams you want to generate. The app will create a team from all the participants in the module Participants list in Moodle.
- **8.** Click the 'Create Team' button for any modules from which you want to generate a team. Depending on the size of the cohort on the module the generation process can take several minutes to complete.
