

Nr. 15644 / ACI 04 08 2014

To: Romanian National Institute of Marine Geology and Geoecology - GeoEcoMar

To whom it might concern

Regarding the Project “Operational Tools for Climate Change Adaptation in Europe” – Operation CLIC EUROPE, we wish to express our support and willingness to actively contribute to the discussion of the results.

Therefore, we will consider testing the outcoming tools, where appropriate for our organization and be engaged in assessing and refining them if possible.

I wish you every success with the proposal.

Warmest regards!
